

REVENUE MANAGEMENT SERVICES

Powered by Revedia

Focus on your core business while the industry experts at Symphony MediaAI manage your license fee revenue.

Let the experts at Symphony MediaAI manage the day-to-day finance function of your license fee revenue. With 75 years of combined experience, expertise and insight, Symphony MediaAI's revenue management services reduce A/R cycle times, detect reporting issues faster, and decrease personnel costs.

Benefits

Maximize revenue while managing the affiliate finance function effectively

Mitigate costly employee turnover and training costs

Detect revenue leakage with system and carriage level tracking and analysis

Access real-time financial data and dynamic summary reports

Reduce collection times and manage AR issues

Highlights

- **Comprehensive:**

Monthly financial close package and 24-hour secure access to data on VMetrics.com

- **Accurate:**

Multi-level quality control to assure dependable reporting of revenue and other key data

- **Dedicated:**

Personalized, experienced account management team and single point of contact

- **Scalable:**

Multi-level team support with account redundancy to mitigate resource transition costs and risks

- **Optimized:**

Maximize revenue and speed-up collection times on AR issues

- **Proven:**

Manage over \$6 billion a year in license fee revenues

- **Software-based:**

Data processed by experts in the industry's leading solution for revenue and subscriber management

- **Connected:**

Leverage our industry expertise and distributor relationships for issue resolution

"Symphony MediaAI definitely qualifies as a partner with Scripps. SMAI's continued support helps us manage our business more efficiently and their willingness to partner with us on developing the reports has been a great benefit to our company."

- Alison Young, Senior Director of Accounting Operations

Symphony MediaAI's revenue management services provide the highest quality and most comprehensive set of services, including:

- Agreement administration and compliance
- Accounts receivable and payment processing
- Full account reconciliation
- Carriage and transaction layer capture and analysis
- MVPD remittance processing and invoicing
- Full monthly accounting close
- Straightforward in-application reporting

Month-end financial close package:

- Cash reports
- Monthly accrual/billing reports
- Revenue adjustment reports
- Executive summary reports
- Aging reports
- Agreement grids

Monthly accounting close packages are delivered based on clients' unique business and reporting needs
